**Devices Page** 

The Devices page can be accessed from the side navigation bar by clicking on Devices.

#### Summary

On the devices page, information about your registered devices will be displayed. Here you can view your devices name, serial number, model, assigned device pools and its last seen time.

## **Allocating A Devicepool**

Device Pools can be allocated to a device by selecting the checkbox. This can also be done for multiple devices. Doing so will cause the Allocate Devicepool button to appear. Clicking this will open the Allocate Devicepool dialog.

## **Device Status**

In this column, you can view the time that the device's data was synced with the website. You can also view the devices status, denoted by the colored dot next to the time. A green dot indicates that a device is online, while a red dot indicates that a device is currently offline.
