

Browan Setup On Lorient

Prerequisites

1. The Browan router
2. A pen
3. Dot stickers
4. Access to location sheet or someone with access to the location sheet
5. Access to lorient portal or someone with access to the lorient portal

Follow the steps below to set up and register a Browan router.

1. Unboxing and Initial Setup

1. Unbox the router.
2. Make note of the **password** on the back of the router.
3. Connect the **Browan** to power.

2. Connect to Router

1. On your PC, go to available **Wi-Fi networks**.
2. Find and connect to the **Browan router** using the password from the back of the device.

3. Router Configuration

1. Open a web browser and go to: <https://192.168.1.1/>
2. Navigate to the **Configuration** tab.
3. In the **Protocol** section:
 1. Set **Server Address** to: `eu4pro.lorient.io`
 2. Set **Server Port Up** to: `1780`
 3. Set **Server Port Down** to: `1780`
4. Click **Save Changes**.

4. Register the Router on Lorient

1. Log into [Lorient](<https://www.lorient.io/>)
2. Register the router using its details.
3. Verify that the router is **communicating** properly.

5. Gather Gateway Information

1. Navigate to the **Dashboard Overview** tab.
2. Copy the following:
 1. **EUI** - Add this to the **location sheet**
 2. **MAC Address** - Add this to the **location sheet**

6. Final Steps

1. Repackage the router.
2. Place the **sticker** on the **top of the box**.
3. Write the **current date** on the sticker to indicate setup completion.
