Viewing A Device

By clicking either on the device name, or by opening the side menu and clicking View, you will be redirected to the Device/Devicepool View page.

Allocating A Devicepool

Device Pools can be allocated to a device by selecting the checkbox. This can also be done for multiple devices. Doing so will cause the Allocate Devicepool button to appear. Clicking this will open the Allocate Devicepool dialog.

Devicepools

The devicepools allocated to a device will be shown in the table in the devicepools column. From here you will be able to remove allocated device pools by clicking on the 'x' button.

By clicking the + button in the devicepools column you can reveal dialog showing all the devicepools for that device.

Device Last Seen

In this column, you can view the time that the device's data was synced with the website. You can also view the devices status, denoted by the colored dot next to the time. A green dot indicates that a device is online, while a red dot indicates that a device is currently offline.

Device Editing

In the options column, clicking on the 3 dots icon will open up a menu which contains 3 options (this can vary based on your user role). 'Edit' will open the Device Edit dialog. 'View' will route you to the Device/Devicepool View page. 'Delete' will remove the device from your account.

Device Registration

Clicking the register device button will route you to the Register Device page.
