

Report Playback

Navigation

Report playback can be accessed from the Reports page.

Overview

Here you can playback a report for a specified date and time period. This allows you to use the current report configuration with your chosen date and time period.

Configuring A Report Playback

To do a playback, there are a few details that need to be set. First select either a Standard or Advanced Report. Then, select a date and time period. This will be the date and time period between which the report displays data. Frequency log determines the time interval (in minutes) that a point is

recorded on the report. The frequency log will default to the frequency log set in the selected report. However, this can be changed to fit your needs.

Playback Report

Standard		Advanced	
Start Date *	End Date *		
4/18/2023	4/18/2023		
Start Time *	End Time *		
07:30	17:00		
Frequency Log *			
10			

Cancel **Submit**

After clicking 'Submit' an email will be sent to you with a report for the specified date and time period.
