Editing A User

Navigation

The User Edit dialog can be accessed from the Users page.

Overview

Here you can edit either your own information or the information of a user who has a lower role than you. The fields displayed may vary based on your current user role. The password fields will not be displayed if editing a user other than yourself.

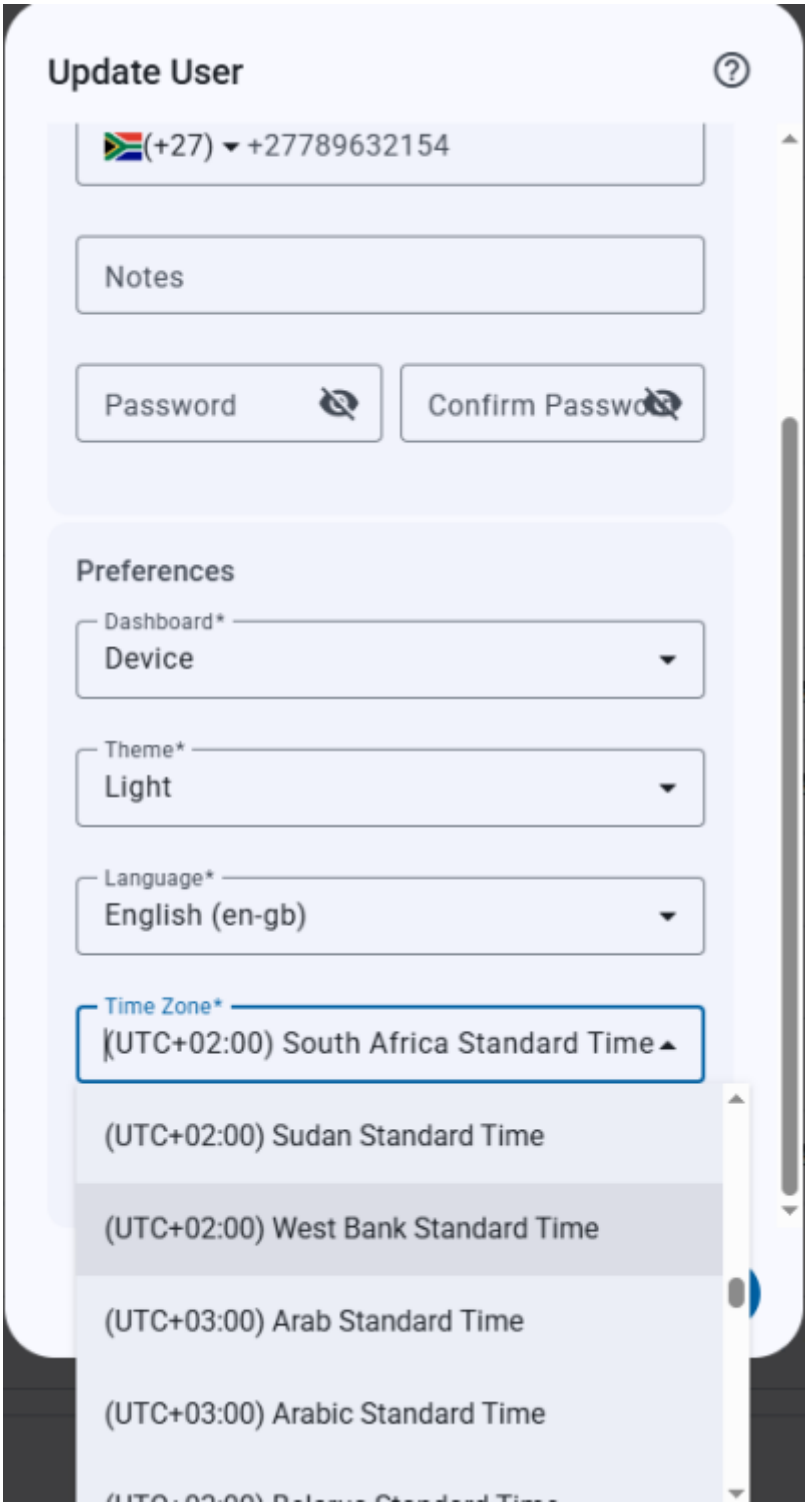
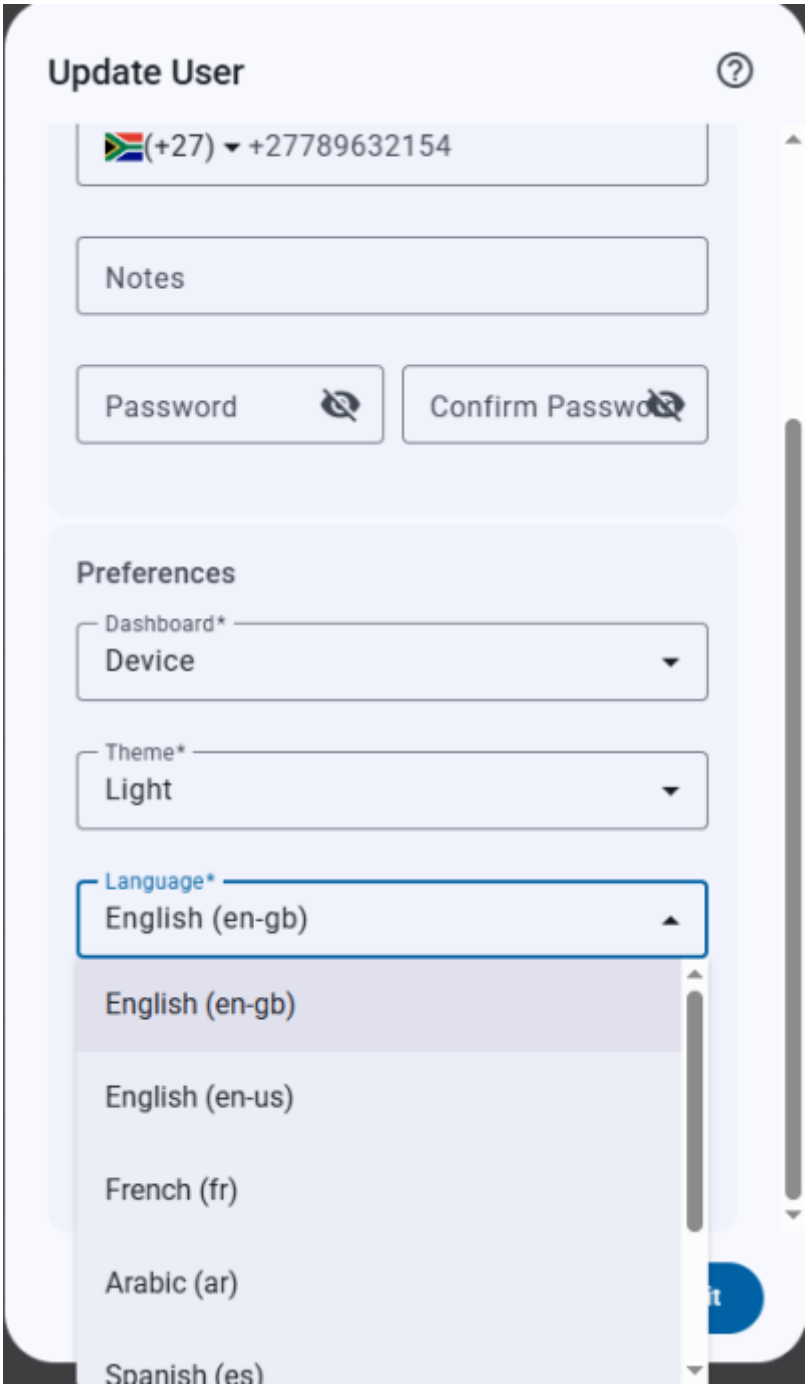
Timezone

Here you can edit the user's timezone. This will affect the formatting of time on the system.



Language

Here you can select the language you would like to display the website in. Currently only English, French and Arabic is supported.

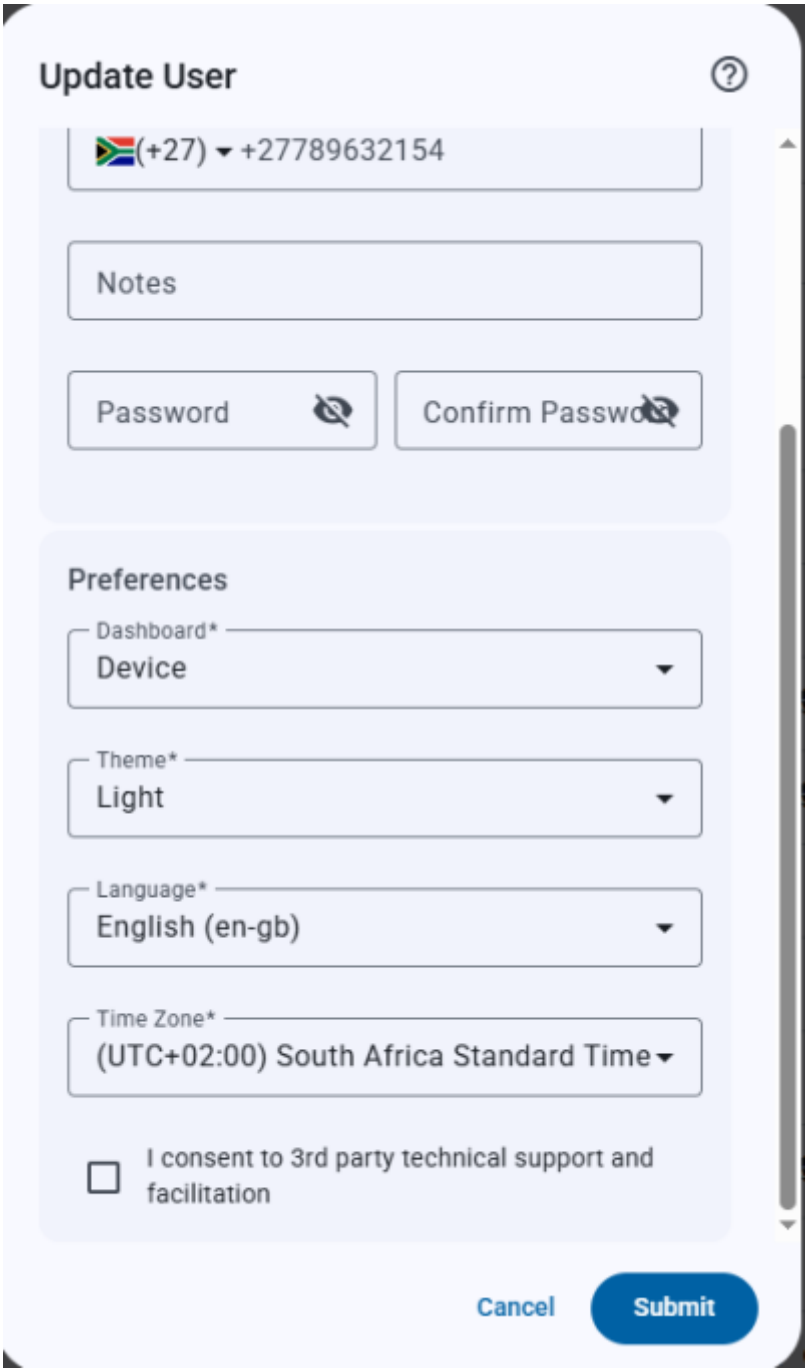


Setting A Dashboard Type

You can select a dashboard type from the dashboard drop down menu. This will affect what you view when 'Dashboard' is selected from the side navigation menu.

There are currently two types of dashboards:

- Sensor Dashboard - This is the default dashboard which displays sensor information.
- Device Dashboard - This dashboard is used primarily for SMRTCloud devices.



Setting A New Password

You can adjust you current password by typing your new password in the password field and confirming the new password in the confirm password field.
