

User Engagement

Navigation

The User Engagement page can be accessed from the side navigation bar by clicking the Users tab then clicking User Engagement.

Overview

On the user engagement page, information about the activity of users in your company will be displayed.

Filtering Engagement Data

Engagement data can be filtered by their category by using the drop down menu. The search function and month selection also allows further filtering.

User Engagement Data

Clicking on a day will open the Engagement details dialog. This will allow you to view a timeline of user information on a specific day.
