

# Users Page

## Overview

On the users page, information about users in your company will be displayed. Here you can view the users information and roles, edit existing users and invite new users to your company.

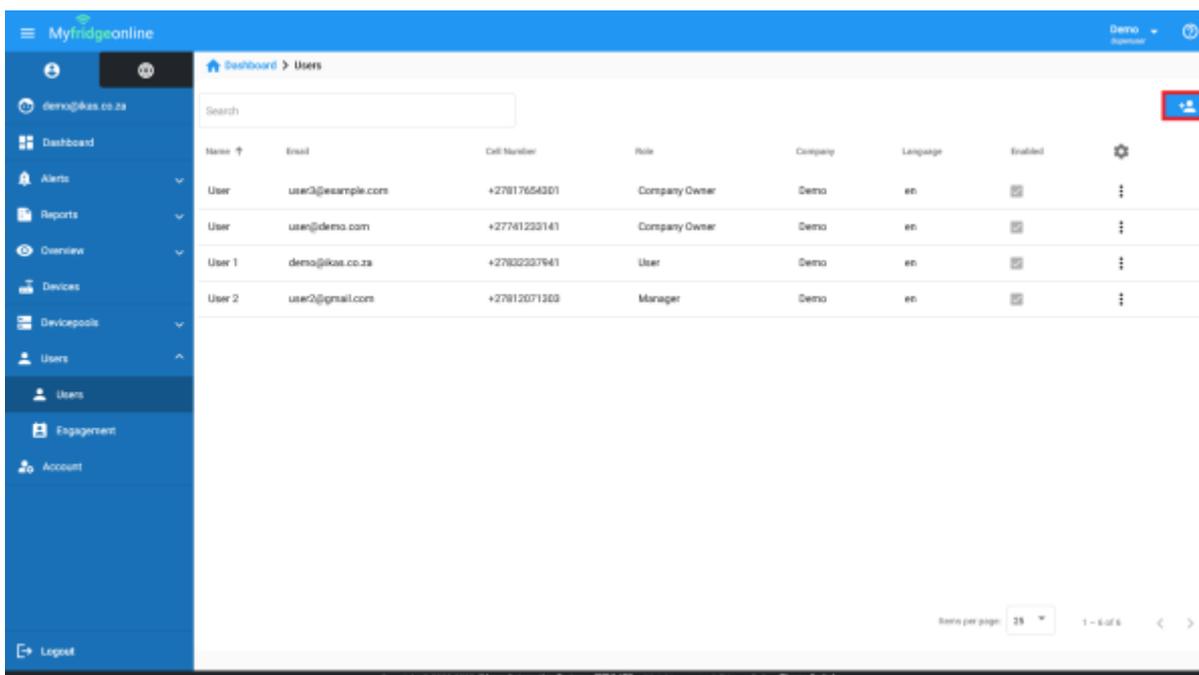

NB: Users displayed here may vary based on your current user role. Users of a lower role can not view users of a higher role. Eg. A user with the role of User will not be able to see someone with the role of Manager and above. Learn more about user roles here.
